APPLICATIONS

Tally

Created to make Game Nights and Leaderboards easier to manage.

- Played the role of "Product Owner", in a team of 5 developers.
- Accomplished daily and weekly goals utilizing Scrum.
- Written with Vue.js and Node.js

Buglog

A way to track computer bugs.

- Sole creator of client and server side.
- Accomplished daily goals using Trello to divide and conquer
- Written with Vue.js and Node.js

EXPERIENCE

Harris Rebar

Bender (Nov 2020 - Jun 2021)

- Encouraged teammates to follow safety protocols, was unafraid to speak-up and have crucial conversations with teammates who weren't.

Vulcraft

Welder / Rod Bender (Nov 2017 - Apr 2020)

- Received CWB and AWS 2G welding certificates
- Was one of only 3 people, in a shop with 150+ amazing production teammates, trained to run and maintain an automated rod bending machine.
- Learned to prioritize tasks and get them done in creative and efficient ways so that "bottle-neck" areas of the production line could be helped.

3rd Gen Machine(CNC)

Shift Lead (Apr 2014 - Nov 2017)

- Managed a team of 4-6 employees, setting personal monthly goals with each team member to help them achieve success.
- Helped our team meet daily production goals in a fast paced environment.
- Filmed and edited training videos to help standardize training across all shifts.
- Held daily stand-up meetings to plan out our goals.

EDUCATION

Boise CodeWorks

Full Stack Software Developer Student
(June 2021 - Present)

Brigham Young University - Idaho

General Studies (2010 - 2012)
